

# Paid Teaching Internships

We are delighted to be a lead school in the delivery of the Department of Education's paid teaching internship scheme for Maths and Physics undergraduates.

The programme will give interns a real insight into the role and responsibilities of a teacher through classroom experience and academic sessions delivered by experienced teachers.

## Features of the programme:

Initial meeting with the Programme Director

Classroom placement and attachment to a tutor group

Formal mentoring from experienced subject specialist

Formal Professional Learning Programme

Testimonial on completion

Support for application to teacher training

Guaranteed interview for Northern Lights SCITT programme

**For more information on the recruitment process and to request an application form, please contact:**
